General

Work Capacity

- Currently Rockwood has capacity to take on new work at our Paignton Branch, Devon, UK.
- We are batch manufacturers, so peaks and troughs come and go all the time, this means we always keep capacity available even through peak manufacturing periods as to not turn down pertinent opportunities
- Rockwood is currently setting up a manufacturing facility in Morocco and already has presses fabricated ready to ship over. This will allow for much larger volumes in a LCC in the near future.

Moroccan Manufacturing Facility

- A Moroccan manufacturing facility in Midparc, Casablanca is in the pipeline
- Ideally situated with excellent shipping routes
- This facility will benefit from no import or export tax giving our customers excellent savings on manufacturing
- This facility will grow to an employee number of approximately 100 allowing much greater through-put of volume and fast turn around

Corporate Social Responsibility

Environmental Responsibility

- Rockwood is taking steps to achieve Net Zero by 2030
- Rockwood uses Zero to Landfill waste management where anything that cannot be recycled is turned in RDF
- Rockwood offers eco-friendly material alternatives such as Bio resins and plant-based fibers

Ethical Responsibility

- Equal opportunities to all

Philanthropic Responsibility

- Rockwood is taking on work experience pupils for extended periods from the local college to give real world knowledge and experience to

Financial Responsibility

- Research and development of new plant-based fabric to produce recyclable and bio-degradable products

Diversity, Equality and Inclusion

- Rockwood Composites is “fully committed to providing a good and harmonious working environment that offers equal treatment and equal opportunities for all employees and where every employee is treated with respect and dignity. The Company’s aim is that recruitment, promotion and retention should not be affected by irrelevant considerations and stereotyping.”

Rockwood Composites’ Equal Opportunities Policy
